POLICY REGARDING DRUGS, ALCOHOL, WEAPONS AND PORNOGRAPHY

It is the aim of this policy that all members of the school community convey by their actions and teachings that they do not condone the inappropriate use or possession of alcohol, other drugs, pornography, dagga, cigarettes or weapons. The school policy opposes the inappropriate use of these items and the possession and use of controlled/prohibited substances. The policy applies to all students while involved in an activity sanctioned by the school and when he/she can be identified by the public as a student of the school.

The school does not permit students:

- The use or possession of prohibited/controlled substances or substances that has a psychotic effect unless it is prescribed by a medical professional.

Initial: Father / Guardian: _____ Mother / Guardian: _____ Student: _____ Principal: _____

- The inappropriate use of medicines, tobacco and other drugs or the inappropriate use of solvents, inhalants, controlled substances and/or other chemicals. (Controlled substances include alcoholic drinks, dagga and medication.)
- The consumption of alcoholic beverages unless under “acceptable” adult supervision
- The possession of drug related paraphernalia/pornography/dangerous weapons
- To be under the influence of alcohol and/or other drugs.
- The possession of the substances and items as mentioned in the introduction when involved in school activities

The consequences for breaching these requirements will include:

- Appearing in front of the governing body
- Drawing up of contract between all parties and/or other appropriate action relative to the breach.
- Suspension or expulsion of student

The school aims to ensure that what we do should be to the advantage of our students and the student body as a whole. We understand that:

- We are part of a greater community
- We are in partnership with our parents/guardians to ensure the best for our students
- Our children are exposed to a wide variety of addictive or habit forming substances
- Teachers, other staff and parents are not always equipped with sufficient information
- Substance and weapons misuse and pornography is detrimental to humans
- We have to equip our young people to deal with life and its challenges.
- We do not accept substance or weapons abuse in any way and we aim to support those students who need and want help. In cases where students and parents do not wish to make use of such help offered to them the school will have no choice but to take whatever action it feels necessary, including expulsion. Students expelled because of these related incidents will **forfeit all monies paid to the school.** (School fees, administrative fees, screening fees, etc.)

Prevention

- The signing of this document is a prerequisite to acceptance in the school. We want a drug, weapon and pornography free school to protect our students and we undertake to do the following:
- Present information sessions to the students, parents and staff
- Involve outside organizations and individuals as part of a team approach
- Support the founding of positive peer groups
- Adapt this policy if and when necessary
- Support a drug and pornography free, healthy life through word and deed
- Support students in their attempts to live a drug free life
- Include parents/guardians when relevant. (Parents/guardians are expected to contribute financially to the relevant programmes)

Substance use

- The use of any mood altering or habit forming substance without a doctor’s certificate is strictly forbidden while a learner can be identified as a student of our school.
- The school reserves the right to take action according to this policy if a student’s substance misuse (inside or outside school) influences their academic achievements, behaviour, attendance, etc

Dealing in drugs and or pornography

- Dealing in drugs and or pornography during any school activity is strictly forbidden. Any criminal behaviour regarding this matter may be referred to the authorities after which the normal legal process will take place.

Initial: Father / Guardian: _____ Mother / Guardian: _____ Student: _____ Principal: _____

Action taken by the school

- Each case will be assessed and considered individually and confidentially within the framework of this policy.
- Where reasonable suspicion exists the school will have no option but to investigate (this may include screening) and to act where and when necessary. This is not a process of victimization but an honest attempt to identify a student in crisis at an early stage and to protect the student and the other students.
- Staff will be trained to act responsible and according to the accepted policy.
- Experts and professionals will be called in when necessary.
- Parents/guardians will be held responsible for expenses incurred during a drug/alcohol related incident (assessment, screening, treatment, therapy, outside programmes, medical attention, etc.) unless alternative arrangements have been made with the school.

All parties involved will be required to draw up a contract which will include:

- Treatment options
- Ad hoc screening done arranged by the school. Parents/guardians are responsible for the costs involved.
- Regular feedback from treatment center/therapist to school
- Contract can be renegotiated when needed
- The student may be required to leave the school if the contract is breached
- The school reserves the right to recommend that the student completes his/her education somewhere else.

Searches and Screening

- Where a staff member reasonably suspects that a student has prohibited substances in his/her possession, then the appointed nominee may search that student's possessions.
- If such a search should be necessary it should occur in the presence of the student concerned, a student to support them (if the concerned student requires it) and a second adult witness.
- Where a staff member reasonably suspects that a student is under the influence of a prohibited substance (drug or chemical substance) the student can immediately be sent to the appointed nominee for screening. This is an honest attempt to identify a student who may be moving into addiction so that proactive action can be taken.
- The cost of drug tests will be added to the school fees if a student tests positive for drugs.

Definitions:

- **Drugs:** A drug is defined as any substance, which alters the normal way in which the mind or body functions.
